D.O. No. A-11011/2/94-Estt. XII/1988-89
Government of India
Central Water Commission

Room No. 312, Sewa Bhawan,
R.K. Puram, New Delhi-66.

Dated, the 13th December, 1994.

Dear Shri Mittal,

P-1111/Com
Please refer to your D.O. letter No. 19/21/92-E. I (Vol. III), dated 11.10.94 regarding 10% cut in the existing sanctioned posts on Workcharged Establishment under Central Water Commission. The position has been reviewed in the Commission in consultation with field Chief Engineers. The sanctioned posts on Workcharged Establishment depend on various works/Schemes and projects being executed or to be carried on in future as the salary and allowances etc. of Workcharged staff are directly chargeable to the 'works' or Sub-work of a Work. However, the present sanctioned strength in the various categories of Workcharged posts as at present is 531. Out of this the following posts can be identified for surrender :-

Workcharged Khaleasis	447
M.V. Drivers	8
Boatmen	30
Total	485

In addition another 45 posts in different grades can be identified for surrender as and when the incumbents retire or get promoted to next higher grades. Then the total possible surrender will work out to 530, i.e. 10% of the sanctioned strength.

The Central Water Commission field offices will be suitably advised in this behalf on hearing final decision from Ministry of Water Resources.

With regards,

Yours sincerely,

CR
