Request Pertains to :

Information Sought :

Please provide a list of the cyberattacks faced by the energy infrastructure across India in 2018, and if the data are available in 2019, complete with location and date for each event. Each item should briefly describe the nature of the attack and, where identifiable, the place of origin (India or foreign country). Infrastructure will include power plants such as dams, solar and wind farms, and coal power plants as well as any other plants with a capacity of more than 7MW. The list should also include discoms websites, breaches of the commercial billing software used by discoms, and any other relevant software infrastructure that may have been targeted by cybercriminals.
