Sub: Nomination request for Delegates towards upcoming XIII World Aqua Congress 2019 International Conference on WATER ; Theme- Water for all: Leaving no one behind 30-31 October, 2019 at India Habitat Centre, Lodhi Road, New Delhi - 110003

Greetings from Aqua Foundation!

As you are well aware of the activities of Aqua Foundation which includes World Aqua Congress (WAC) which is the flagship event organized by Aqua Foundation annually and is recognized as the most consistent and prestigious international conference organized in India. XIII World Aqua Congress (International conference on Water) is being organised in association with **Central Water Commission**, National Water Mission, PHD Foundation, CBIP, ICID and CIDC. Event brochure enclosed.

Hon'ble Union Minister of Jal Shakti - Shri Gajendra Singh Shekhawat has given his formal consent to inaugurate the event on 30 October at 10 am at IHC New Delhi and deliver an inaugural speech.

Through this communication we sincerely urge you to nominate maximum possible delegates to be an integral part of the 2 days proceedings on 30-31 October 2019. In the past also we have always received encouraging participation of delegates from CWC. Also as always as a special case we will keep the Delegate fee amount of INR 6000 + GST 18% only for CWC officials.

We wholeheartedly thank you for your time and look forward to receiving timely nominations from CWC.

With sincere regards,

Praggya Sharmaa (Ms.)
Organizing Secretary- XIII WAC 2019

About XIII World Aqua Congress 2019

Water for all – Leaving no one behind

Aqua Foundation's World Aqua Congress (Conference & Exhibition) brings water, environment and related professionals from around the world and offers new insights into how cutting edge research, technological innovation and leading practices shape the major transformation in water management. The conference provides a unique opportunity to learn about the latest trends in best practices, innovative technologies and cutting edge research. Connecting experts from across water and environment sectors, it deliberates on challenges of delivering clean water to growing populations, keeping rivers and water bodies clean & healthy, best practices for ground water exploration and management, industrial water management, enhancing water use efficiency, impact of climate change, policies and regulations, and acknowledging champions of water & environment. Experts, practitioners, decision-makers, business innovators and young professionals from a range of sectors and countries network, exchange ideas, foster new thinking and develop solutions to the most pressing water-related challenges of today. We believe water is key to our future prosperity, and that together, we can achieve a water wise world. The Congress presents the collective knowledge and know-how through leading keynote speakers, Tech-talks by industry leaders, research paper presentations, poster sessions, showcasing latest technologies in display areas, and open discussions.

When the 2030 Agenda was adopted in 2015 by the UN, all countries and stakeholders set out an ambitious agenda envisaging a world free of poverty, hunger and disease. A world where all life can thrive and where no one is left behind. At a time of immense global challenges – poverty, inequalities, natural disasters, humanitarian crises and forced displacement – the 2019 edition of World Aqua Congress aligns itself with theme of UN World Water Day and looks at why people have been left behind and how access to water and sanitation and sustainable water management can be drivers of change. Water for all implies that also elderly, disabled, marginalized and poor people get access to clean drinking water and proper sanitation, as is meant with universal access in Sustainable Development Goals #6.1 and 6.2.

India is growing...practically in every aspect. At 7.6%, India is the fastest-growing large economy in the world today. At the same time, Indian economy is struggling with excessive population growth and changing water resource conditions. India faces major challenges in the water sector with the per capita availability going down and demand growing due to urbanisation and industrialisation.

The objective of the XIII World Aqua Congress is to bring various stakeholders on a common platform, deliberate on various issues linked to water, discuss inclusion of these solutions in policy framework and work towards ensuring a more sound future for the world we leave to our children.

The conference is being organized along with exhibition on water technology. Various new technologies have emerged for efficient use of water, water management, waste water treatment, distribution, desalination, recycling, re-use etc., and exhibition provides a platform for display of these technologies.

The sub-themes of the conference have been aligned with identified goals of National Water Mission, to ensure integration of solutions with policies and priorities of the Government. Following themes broadly describe the focus areas of deliberations, with a certain degree of overlapping. The structure has been deliberately kept flexible and will evolve depending on research contributions received from participants.

Themes & Topics

Following themes broadly describe the focus areas of deliberations, with a certain degree of overlapping. The structure has been deliberately kept flexible and will evolve depending on research contributions received from participants.

Water Resources: Availability, Management, Quality

- Status of Water Resources
- Water Quantity- Gaps in Demand & Supply in Various Sectors
- Water Quality Criteria for various Uses-Present Status
- Water Exploration & Management- Latest Trends in Surface & Ground Water
- Water Quality Management
- Additional Resource Creation (such as Rain Water Harvesting, Recycling etc.)
- Population Growth, Urbanization, Economic and Industrial Development

Global Climate Changes and Impact on Water Resource Management

- Validation of Future Projections
- Creation of Comprehensive Water Data Base
- Impact of Global Climate Change on Water Resources
- Modelling for Future Trends
- Solutions and Technology Development
- Politics of Water Crisis and Climate Change
- Climate Change and Water Security
- Climate Change and Polar Regions

Water for All- Action Plan

- Ensuring Adequate Water Quantity and Quality for All
- Quality Monitoring Mechanisms
- Identification of Vulnerable Sections, Wetlands and Springs
- Inclusive Water Security
- Capacity Building to Secure Inclusive and Sustainable Innovation
- Role of Good Water Governance to Improve Inclusiveness

Enhancing Water Use Efficiency

- Physical, Social and Economical Dimensions
- Technological aspects
- Environmental aspects
- Enhancing Water Use Efficiency Agriculture Sector
- Enhancing Water Use Efficiency- Rural Sector
- Enhancing Water Use Efficiency- Urban Sector
- Enhancing Water Use Efficiency- Industrial Sector
- Strategies to Increase Water Use Efficiency by 20%

Action Plan for Vulnerable and Over-exploited Areas

- Identification of Critical Areas
- Additional Resource Creation (Rain Water Harvesting, Recycling etc.)
- Detailed Aquifer Mapping for Effective Aquifer Management
- Technologies for Desalination, Recycling and Reuse
- Rejuvenation of Water Bodies and Traditional Water Conservation Structures

Integrated Water Resource Management

- Basin Level Integrated Water Resource Management
- Water Transfers
- Climate Change Considerations
- Water Budgeting

Water Technologies

- Water/ Wastewater Treatment
- Water Reuse and Recycling
- Water Quality Management
- Drinking Water: Purification, Bottling, Supply
- Salinity Management
- Latest Technologies in Water Exploration and Management
- Software for Water
- Rainwater Harvesting
- Ground Water Management and Modelling
- Technologies for Irrigation and Agriculture
- Water Leakage Technologies
- Utilities and Utility Management

Financial, Institutional, Legal and Policy Issues

- Water Policy and Water Usage Reform
- Water Rights, Pricing and Laws
- Government's Role in Water Management
- Water Access as a Fundamental Right
- Laws to Prevent Pollution of Water Bodies and Aquifers
- Municipalities and Sustainable Water Management at Local Level
- Water Infrastructure – Investment and Financing

Participation Opportunities

Maximize your success at XIII World Aqua Congress 2019

Sponsorship & Promotional Opportunities

To make the optimum use of this platform, get benefitted from the sponsorship opportunities available and increase your brand value. Your logo will be featured in all promotional materials and on site signatures. There are many cost effective sponsorship packages that would suit your needs and budget.

- ➔ 10% discount on group of 3 or more delegates nominated from a single organization is applicable.
- ➔ No discounts for Students and Accompanying Persons (Spouse only).
- ➔ GST 18% is applicable.

Exhibition Opportunities

The event provides an ideal platform to showcase your products and services to decision makers and policy makers, in the field of water & environment. Products of interest for exhibition include (listed in alphabetical order to avoid bias), but are not limited to:

- ◆ Automation & Sensors for Monitoring
- ◆ Decentralised Water Supply Systems
- ◆ Filtration Systems
- ◆ Geophysical Technologies & Equipments
- ◆ Irrigation Technologies
- ◆ Leak Detection Technologies
- ◆ NRW Reduction Technologies
- ◆ Reuse, Recover & Recycle Technologies
- ◆ Water Harvesting
- ◆ Waste Management Systems
- ◆ Water Pollution Monitoring Systems
- ◆ Water Purification Products and Systems

Various display opportunities are available, For more information contact at : +91 9818568825, 9873556395

Relevant Sectors for Participation

Using Recommendations:

- + Ministry of Jal Shakti
- + Ministry of Urban Development
- + Ministry of Environment, Forests and Climate Change
- + Ministry of Earth Sciences
- + Ministry of Science and Technology
- + Ministry of Agriculture & Farmers Welfare
- + Ministry of Housing and Urban Poverty Alleviation
- + Ministry of Power
- + Ministry of New and Renewable Energy
- + Ministry of Mines

A must attend event for:

- + Policy Makers & Planners
- + Urban Planners, Utilities & Developers
- + Pollution Control Boards
- + Water Resources Departments, Organizations & Industry
- + Products/Services Providers in Water, Waste & Sanitation Sectors
- + Construction & Infrastructure Industry
- + Environmental Companies & Consultants
- + Mining Industry
- + Hydropower, Thermal Power, Nuclear Power & Renewal Energy Industry
- + Dam Owners & Planners
- + Environmentalists
- + Civil Society Members
- + NGOs
