To,

All Chief Engineers, Central Water Commission (HQ & Field Offices).

Subject: Participation in expedition to Risky Glacial Lakes planned by State Government under the direction of CoDRR- Seeking details of willing officers of CWC.

Sir,

Through, CoDRR meeting, NDMA is coordinating with State government & Central Agencies for planning and implementing measures like ground-based monitoring, EWS, etc. In this context, NDMA has already identified risky Lakes in India under Category A, B and C respectively (42,37,62 numbers) using data from various agencies working in the field of monitoring of Glacial Lakes. State Government are pursued to plan expedition for risky Glacial Lakes of Category A (42 no) during 2024 with the assistance of Lead Technical Agency finalised along with the other concerned agencies.

In the view of the declaration of Central Water Commission as Nodal agency for Glacial Studies with NIH as technical partner, CWC has to participate in above expedition whenever planned and give their valuable inputs. Participation in such expedition requires certain level of medical fitness due to high altitude and extreme weather condition.

Further, the number of planned expeditions is such that it is not manageable through few officers from P&D organization only. Therefore, it is required to involve officers from field as well as organizations of CWC (HQ) to meet the requirement of 42 planned expedition during the year 2024.

In this regard, it has been decided to compile a list of willing officers from both field and headquarters for nomination to these expeditions whenever planned. Accordingly, it is requested that the details of willing officers from your organisation may kindly be shared to this office by 10th June 2024 in the following format:

I/174216/2024

Name of the Officer	Designation	Office	Age	Mob No	Email	Health issue (if any)	Previous experience in similar expedition/High altitude (>3500m) tracking

भवदीय,

(विष्णु देव राय)
